Waste of time and money, stupid... and I'm rarely critical of any movie at all.. >.>. A<u>www, that was sweet! Some gamer stories</u> never get old. Good job, indie film people.. That was Really Emotional and really great, somehow at the end of the movie i had a smile on my face, something like that doesn't happend alot when i watch a movie and have a smile when it ends the movie was really great and i recommend it for everyone yes its 22 mins but damn its an amazing movie and i would love to see more movies like that :3. Nothing original in this. The short descriptive covers it all. Nonetheless, I mildly enjoyed it. It's a low budget, small studio film, it's cheap, and it was entertaining watching it (at least I don't feel like having wasted 20 minutes), so let's make it a thumbs up. Believe me, however, there is nothing original in this, nothing unexpected, and it's not particularly clever nor fun. All characters are very sterotypical and the geeky girl is maybe too much pretty for the role she is supposed to play. The review of "Just movies" nails it perfectly: it will leave a smile on your face. And that's pretty much all about it... Couples that game together, stay together <3. Maggie was emotionally abusive by giving the cold shoulder and refusing to communicate and hear him out.

She let her jealousy control her actions when they weren't even in a committed relationship.

She was the one to introduce them!

Red flags.. this sucks i just wasted 2 euros on one F\*\*king episode. I could have bought a game for that
